

S4x25 Video Release Schedule

Color Guide: **Main Stage**, **Stage 2**, **Stage 3**

MON, February 24:

Dale Peterson Welcome & Keynote

- Dale Peterson

WED, February 26:

Burning Down Cities

- Brian Foster

MON, March 03:

Integrating Cybersecurity AI Technologies Into OT

- Ofir Arkin

WED, March 05:

OnRamp: Supply Chain

- Cassie Crossley

MON, March 10:

Fireside Chat: Who Needs To Step Up?

- Paul Griswold & Dale Peterson

WED, March 12:

It's Not As Simple As "Use A Memory Safe Language"

- Colin Breck

MON, March 17:

Operating With Adversary Supplied Components

- Emma Stewart

WED, March 19:

OnRamp: AI In OT & ICS Security

- Jeffrey Macre

MON, March 24:

NIS2 As A Multi-Country Cyber Regulation Experiment

- Dennis-Kenji Kipker

WED, March 26:

What We Learned From ICS Pwn2Own

- Vera Mens

MON, March 31:

Cloud As A Governance Plane

- Mark Kikta

WED, April 02:

OnRamp: Cyber Informed Engineering

- Andrew Ohrt

MON, April 07:

Non-Security Metrics To Identify & Quantify Security Related Risk

- JC Herz

WED, April 09:

Evaluating Vendor AI Claims

- Clint Bodungen

MON, April 14:

Strategies And Lessons Learned From Internal Network Security Monitoring At Scale

- Wes Futrell

WED, April 16:

OnRamp: IT's Impact On OT

- Justin Pascale

MON, April 21:

Financial Analysis Of The OT Security Market

- Richard Stiennon

WED, April 23:

Calculating The Payoff For Attack And Defensive Strategies

- Adam Robbie

MON, April 28:

Fireside Chat: Chris Anthony On Singapore's OT Security Actions & Lessons Learned

- Christopher Anthony & Dale Peterson

WED, April 30:

OnRamp: Vulnerability Management - What To Patch When

- Logan Carpenter

MON, May 05:

Trust, Reputation, Data Security, And You

- David Chamberlin

WED, May 07:

Your IDS Rules For ICS Stink (And How To Fix Them)

- K. Reid Wightman

MON, May 12:

Fireside Chat: Where OPC UA Makes Sense, Standards Adoption, & More

- Tom Burke & Dale Peterson

WED, May 14:

What Secure By Design Aspects Should You Prioritize?

- Matthew Rogers

MON, May 19:

Hot New Gameshow: My Favorite Metric!

- Dale Peterson

WED, May 21:

Decision Points: OT Fit-For-Purpose Or IT

- Eric Forner

TUE, May 27:

Our Interruptible Future

- Andy Bochman

WED, May 28:

Deep Dive On Low Skilled Threat Actors

- Ron Fabela

MON, June 02:

Assessing The Cyber Readiness Of A State (Florida)

- Ollie Gagnon

WED, June 04:

AIBOM: Powering Transparency And Security In AI And Software Supply Chains

- Helen Oakley

MON, June 09:

Make The Big Decisions With Cyber Decision Diagrams

- Sarah Fluchs

WED, June 11:

A Severity Rating Scale For OT Security Incidents

- Munish Walther-Puri

MON, June 16:

Replacing Likelihood With Credibility In The Risk Equation

- Andrew Ginter

WED, June 18:

Translating Cyber Threat Intelligence Into Actionable Guidance For OT

- Scott Bowman

MON, June 23:

Alternate Factors For MFA Deep In The Manufacturing Environment

- Bryan Owen

WED, June 25:

SAST Tools For Secure PLC Programming

- Sam Bryce

MON, June 30:

Rating Deployed OT Firewalls' Effectiveness

- Jim Miller

WED, July 02:

New Detection Models: Testing & Results

- Ezz Tahoun

MON, July 07:

OT Security Score For Manufacturers

- Ulrich Lang

WED, July 09:

Identifying Malware In Factory Program Files

- Mars Cheng

MON, July 14:

Testing (And Results) Of Level 1 Device Protocol Stacks

- Edward Lopez

WED, July 16:

How We Used Dynamic Edge Segmentation To Secure Our Hyperconnected Factory

- Mark Finch

MON, July 21:

Long Conversation: OT And IT - Convergence, Integration, And Separation?

- Marty Edwards

WED, July 23:

A PLC Integrated Security Module

- Tamiki Kobayashi

MON, July 28:

Getting An Installed Base Off The Internet

- Anna Damon

WED, July 30:

Securing Vehicle To Everything (V2X) And Accelerating Its Adoption

- Kam Chumley-Soltani

MON, August 04:

The Case For Vertical Specific (Rail) OT Security Training Materials

- Jesus Molina

WED, August 06:

Quantifying Risk For Devices Without Published Vulns

- Yair Attar

MON, August 11:

Micolearning Techniques To Improve Cybersecurity Awareness Training

- Lindsey Mote

WED, August 13:

Modified ROP Chain Generators To Identify Potential Code Execution Exploits

- Ulf Kargén

MON, August 18:

Supply Chain Chipping Attacks: When Should I Worry?

- Monta Elkins

WED, August 20:

Effectively Using Attribution

- Mike Worley

MON, August 25:

Converting A C++ Codebase To Rust

- Mitch Souders

WED, August 27:

Zones & Conduits In The Cloud

- Dennis Hackney

TUE, September 02:

ControlLogix PLC Endpoint Hardening

- Ahmik Hindman

WED, September 03:

Using Microsoft Detours For Deep System Inspection

- Asher Davila

MON, September 08:

Water: The (Potentially) Most Cyber-Resilient CI Sector

- Andrew Hildick-Smith

WED, September 10:

Unsolicited Response

- Dale Peterson

MON, September 15:

The Power Of Collaboration To Secure Critical Infrastructure

- Syed M. Belal
