

S4x26 Video Release Schedule

Color Guide: Main Stage, Stage 2, Stage 3

Monday, March 9:

Welcome & Keynote: Connect

Dale Peterson

Thursday, March 12:

A Richter Scale For OT Security Incidents

Dale Peterson, Kelly Jackson Higgins, Munish Walther-Puri & Robert Hanson

Monday, March 16:

Connect For Industrial DataOps

Aron Semle

Thursday, March 19:

Systemic Security Issues In "SoftPLCs"

Diego Giubertoni

Monday, March 23:

OT Visibility Is Overated

Bryson Bort

Thursday, March 26:

Securing The Diversity In Universal Theme Park's Ride & Show Network

Luis Alves

Monday, March 30:

Case Study: Operationalizing Multi-Source Threat Intelligence

Alex Waitkus

Thursday, April 2:

The Future With ISO 22373 for Trustworthy OT Supply Chains

Aliza Maftun

Monday, April 6:

Great Debate: CRA

Sarah Fluchs & Sam Miorelli

Thursday, April 9:

Emerging Markets OT Security Regulation

Sheila Casserly

Monday, April 13:

Closing The Cyber Physical Risk Capital Gap In Insurance

Neil Arklie

Thursday, April 16:

Building FrostyGoop With The Help Of AI

Jimmy Wylie

Monday, April 20:

Orchestration for OT at Scale

Adam Koch

Thursday, April 23:

Cyber Detection Initiated Safety And Protection

Felipe Costa

Monday, April 27:

Industrial DevOps For Velocity and Resilience

Adam Gluck

Thursday, April 30:

Operation Grim Beeper: A Cyber-Physical Attack

Raphael Arakelian

Monday, May 4:

What OT Can Learn From FinTech On Product Security For SaaS

Maggie Morganti

Thursday, May 7:

Calculating Return On Mitigation

Hector Perez

Monday, May 11:

Gaming With Metrics To Achieve An OT Security Program

Teemu Kumpulainen

Thursday, May 14:

Understanding and Securing Unified Name Space (UNS)

Jeff Smith

Monday, May 18:

Distress Tolerance In Your Job, Life, & OT System

Shireen Rizvi

Thursday, May 21:

Honeypots For Threat Intelligence

Daniel dos Santos

Monday, May 25:

OT Threat Predictions For The Next 1 - 3 Years

John Hultquist

Thursday, May 28:

Generating Malicious OT Data To Train and Test Systems

Dan Gunter

Monday, June 1:

How Complete Is Your Asset Visibility? A Metrics Answer

Grant Geyer

Thursday, June 4:

A Converged Actor Framework

Mike Holcomb

Monday, June 8:

Current and Predicted Market Impact of the US Cyber Trust Mark

Jean Camp

Thursday, June 11:

Does DPI In Industrial Firewalls Actually Work?

Tony Turner

Monday, June 15:

Great Debate: Human In The Loop?

Marissa Morales Rodriguez & Jalal Bouhdada

Thursday, June 18:

What Risk Have You Accepted In A Company Acquisition?

Jacob Marzloff

Monday, June 22:

OT SecOps Or Bust

Adam Robbie

Thursday, June 25:

Creating The OT Security AI Data Model & Data Fabric

Devin McCrate

Monday, June 29:

The Impact Of Regulation On Multinational Companies

Trevor Rudolph; Ryan Rathbun; Dale Peterson

Thursday, July 2:

3 Step Success Story In Semiconductors

Terence Liu

Monday, July 6:

S4 Legend Interview: Mark Weatherford

Mark Weatherford & Danielle Jablanski

Thursday, July 9:

Poland 2025: Attack on the Electric System

Phil Tonkin

Monday, July 13:

Fireside Chat: Katie Jereza Of The US Dept. Of Energy

Katie Jereza & Dale Peterson

Thursday, July 16:

EU CRA Terms and Terminology ... What They Mean For Compliance

Ben Morgan

Monday, July 20:

Game Show: My Favorite Metric!

Dale Peterson

Thursday, July 23:

Identifying And Overcoming Cognitive Bias In Detection Systems

Nicole Carignan

Monday, July 27:

Extending Zero Trust To Your Vendors OR When Managed Security Services Fail

Tom Grusendorf

Thursday, July 30:

Is the World Ready for Cloud-based Autonomous Control System Operations?

Kenny Mesker

Monday, August 3:

POC Pavilion Analysis & Outcomes

Kyle Miller & Dale Peterson

Thursday, August 6:

How Did Team Atlanta Win The DARPA AI Cyber Challenge?

Andrew Chin

Monday, August 10:

S4 Closing Panel

Dale Peterson, Ralph Langner, Megan Samford & Zach Tudor

Thursday, August 13:

A Technical Solution for Internet-Exposed OT Assets

Michael Pyle

Monday, August 17:

AI Analysis of OT Packets For SOC Analysts

Rashi Sharma

Thursday, August 20:

Cybersecurity Advisories: Still Carving Stone While AI Writes Code

Christian Schroeder

Monday, August 24:

Recognizing & Analyzing Compiled AI In OT Binaries & Firmware

Jason Kramer

Thursday, August 27:

OT Warriors Lock It Down

Daryl Haegley

Monday, August 31:

Comms Architecture & Security For Complex Energy Ecosystems

Sara Bavarian

Thursday, September 3:

Measuring And Reducing Maintenance Debt

Esther Shira Stepansky

Monday, September 7:

Harmonics and Oscillations and Boom

Brian Foster

Thursday, September 10:

Case Study: Collaborative Water Utility Security Program In Massachusetts

Gus Serino

Monday, September 14:
Droning About The Supply Chain
Ron Brash

Thursday, September 17:
Procurement: Addressing Risk Before It Is Purchased
Jason Rivera

Monday, September 21:
Dynamic Response In Secure Remote Access
Raed Albuliwi

Thursday, September 24:
DNP3's New Authorization Management Protocol
Andrew West

Monday, September 28:
The Closing Panel In Prime Time
Dale Peterson, Megan Samford, Ralph Langner & Zach Tudor

Thursday, October 1:
Maritime: Compliance Risk Trumping OT Cyber Risk
Michael DeVold
